

SIDDHI SHARMA

GenAI Consultant & Automation Engineer | AI-Driven Business Intelligence & Analysis

Delhi, India (open to Mumbai / Bengaluru) | sharmasiddhi1198@gmail.com | +91 9540515447 | sharmasiddhi1198.github.io/BriefAI

PROFILE

Business & Data professional with 7+ years at Amazon spanning GenAI product/consulting work, workflow automation, business intelligence, and business analysis. Hands-on GenAI builder (BriefAI) and certified in Prompt Engineering, Automation (n8n), and Product Management with Generative & Agentic AI. Skilled across SQL, Python, Tableau, Power BI, Alteryx, and Databricks. MBA candidate (Operations & Data Sciences, NMIMS).

HIGHLIGHTS BY FOCUS AREA

- GenAI Consulting — Designed BriefAI, an end-to-end GenAI SaaS concept covering LLM workflow orchestration, adoption roadmap, and KPI design; applied Generative AI to automate C-suite insight generation at Amazon.
- Automation Engineering — Automated ETL and reporting pipelines (Alteryx) that cut reporting effort by 40%; certified in building, deploying, and selling automations with n8n.
- AI-Driven Business Intelligence — 7+ years building dashboards and reporting frameworks (SQL, Tableau, Power BI, Databricks) used directly for business decision-making; sustained 98% defect-free releases through standardized data-validation frameworks.
- Business Analysis — Led discovery-style requirements scoping to define KPI and reporting needs; delivered 10+ executive walkthroughs cutting decision time by 40%, with stakeholder management across APAC, Japan, USA, UK, and Australia.

CORE COMPETENCIES

GenAI Consulting	GenAI/LLM product design, prompt engineering, agentic AI workflows, use-case scoping, AI-enabled tooling
Automation Engineering	Alteryx (ETL automation), n8n (workflow automation), process automation, workflow redesign
AI Business Intelligence	SQL, Python, Tableau, Power BI, Databricks, KPI/metrics design, data governance & validation
Business Analysis	Requirements scoping, stakeholder management, executive storytelling, cross-functional coordination, Agile/JIRA delivery

PROFESSIONAL EXPERIENCE

Quality Analyst — Business Intelligence & Analytics, Amazon (incl. Prime Video)

Jun 2019 – Present

Delhi, India

- Led discovery-style requirements scoping across business units to define KPI and reporting needs, then delivered 10+ live Tableau/Power BI walkthroughs and Q&A sessions with senior stakeholders, cutting leadership decision time by 40%.
- Automated ETL and reporting pipelines (Alteryx), cutting reporting effort by 40%, and applied Generative AI to automate insight generation for C-suite reviews.
- Delivered SQL-driven quantitative analysis and root-cause investigations across business units, translating findings into actionable insights that lifted CSAT by 30% while sustaining 98% defect-free releases.
- Collaborated with global stakeholders across APAC, Japan, USA, UK, and Australia markets — including cross-functional analytics support for Prime Video — standardizing reporting frameworks across teams.

CAPSTONE PROJECT

BriefAI — AI Sales Intelligence MVP (Capstone Project)

Dec 2025 – Present

Product Management with Generative & Agentic AI Program, BITSOM

- Designed BriefAI end-to-end: translated user needs and market insight into a GenAI product concept, including an adoption roadmap, KPI design, and workflow automation features — from idea to prototype to dashboard.
- Conducted 5 structured stakeholder discovery interviews to validate a use-case roadmap and GTM strategy (3-tier pricing, 6-phase roadmap with KPIs); separately, applied hypothesis-driven A/B testing to a real Amazon product feature as coursework, with the recommendation implemented in production.

EDUCATION

MBA – Operations & Data Sciences, NMIMS

Jan 2026 – Present

MA Economics, IGNOU

2019 – 2021

BBA, Chaudhary Charan Singh University

2016 – 2019
